

4' & 5' Classic and Hummingbird Gliders Assembly Instructions

Base Parts List

- 1 - (A) Back Assembly
- 1 - (B) Seat Assembly
- 1 - (C) Head Board
- 2 - (D) End Piece Assembly
- 1 - (E) Center Cross Piece Assembly
- 4 - (F) Glider Arm Assembly
- 2 - (G) Leg Assembly

Hardware List

- 6 - 5/16" x 4 1/2" Bolts
- 4 - 5/16" x 4" Bolts
- 6 - 5/16" x 3 1/4" Bolts
- 2 - 5/16" x 3" Bolts
- 8 - 2 1/2" Screws
- 6 - 1 1/2" Screws
- 18 - 5/16" Nuts
- 18 - Washers

Step 1 - Fasten headboard to back assembly with six 1 1/2" screws.

Step 2 - Attach seat and back assemblies with four 3 1/4" bolts. Put one in top hole on each end and two in center. Secure each bolt with a washer and nut.

Position back and seat assembly to prepare for Step 2.

Position center cross piece and end piece assemblies to prepare for Step 3.

Step 3 - To assemble glider base, attach center cross piece to end piece assemblies with four 4 1/2" bolts in top. Insert four 4" bolts in bottom, inserted from bottom up. Secure with washers and nuts.

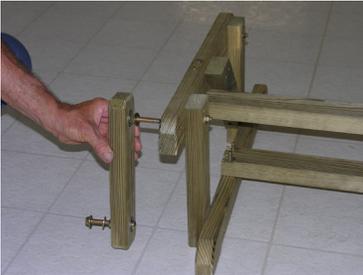

continued on back

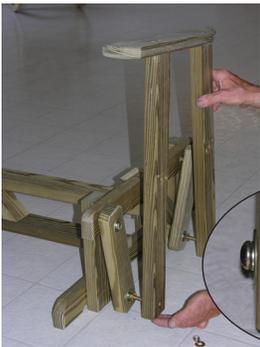

INSTRUCTIONS: *Always match numbers/letters printed on each individual piece. (1 to 1, 2 to 2, A to A, B to B, etc.)

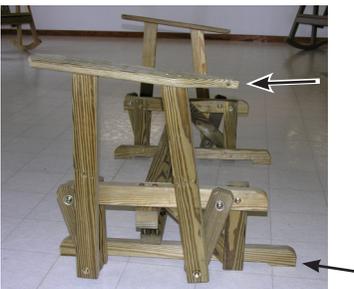

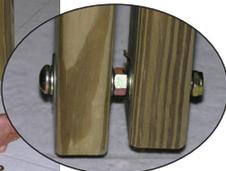

4' & 5' Classic and Hummingbird Gliders *Assembly Instructions*

Step 4 - Remove one washer and nut from each end of glider arm assembly. Attach one end of glider arm assembly to each pre-drilled hole in end piece assembly. Fasten with washer and nut.

Step 5 - Align the other end of glider arm assembly to bottom holes in leg assembly. Fasten with washer and nut.

Make sure the small part of armrest is pointed towards the long end of base.

Step 6 - Slide seat and back between armrests.

Step 7 - Put a 4½" bolt in back leg and 3¼" bolt in front leg. Secure each bolt with a washer and nut.

Step 8 - Put a 3" bolt through armrest into seat back. Secure each bolt with a washer and nut.

Step 9 - Install 2½" screws in each pre-drilled hole in leg assembly.

Place your glider in your appointed spot and enjoy relaxing on it for many years to come.
